Lectori beneuolo . S .

Habes, amice Lector, nullo tuo negotio, nullo ferè ſumptu; quæcumque ex temporum iniurijs in agro Puteolano, Baiano, Cumanoquè ſuperſūt quæ tuis oculis ſubiecimus, exorsi ab ipso in mare deſinentis Pauſilipi iugo; quà mons, opere ingenti à Cocceio perfoſſus, Neapoli commeantes Puteolos, Baiasquè transmittit. proxima littori Nesis insula, et Charia in medio freto; et littori imposita Mergilline, Dei genitricis Virginis templo, et ſui Sinceri cineribus læta; non longe à Virgilij Maronis tumulo, quem hedera, mirtusquè circumambiunt, et ſponte Laurus enata ſupernè semper inumbrat. Hinc ad Lacum Agnani ſpecus canum; cui ab euentu nomen; tum Vulcani forum; phlegræus anteà campus, perpetuis ignibus exundans; dein Puteoli; olim Dicearchia; ædito in iugo mari alluuntur. poſtea Leucogei montes, et, cum Dianæ templo, Amphiteatrū, Episcopi Ianuarij martyrio, quam munere gladiatorio, ædito à Nerone in Tiridatis regis gratiam, longe nobilius. Adiacet Neptuni templum antiqui operis; et Academia, Ciceronis uilla; et Mons Gaurus, nunc verè barbarus, ammiſſa uetere omni ſpecie. Apud Cumas Arcus foelix, et ipsæ Cumæ, templumquè Apollinis in arce ſumma, ac in ipso euboicæ rupis latere exciſum Sybillæ antrum. Mons nouus inde uisitur, unica nocte, ex ignea uoragine cineres, fauillaſquè eiectante conflatus, exhauſto pœnè lucrino Lacu, ignis ui, et cinerum copia. Adeundus etiam Auernus, et antrum falsò ab incolis Sybillæ creditum, et Mercurij, Apollinisquè templa, et Villa Pompei Magni, et, vbi quōdā Baiæ, Arx Baiar, et portus, et ingentes thermæ, vulgò Trulli, Aedesque Dianæ, et Veneris. Nec prætereundum Miſeni promontorium, cum Portu Iulio, et Luculli uilla; Adde Centum cellas, Traconariumquè antrum, vbi Nero mirabilem piscinam incœperat, excipiendo quicquid calidarum aquarum totis Baijs continerètur. Adde alteram Luculli uillam, quæ prius G. Marij, et Circum; nunc Sabbathi mercatum dicunt, et Baulos Agrippinæ villam cum ipsius ſepulcro. Poſtremò Palus Acherusia, poetarum fabulis clara; nunc Colutianus Lacus; et cisternæ ueteres, et Villa Seruilij Vaciæ perluſtrandæ. Plura quidem ruinis obruta delitescunt, quorum pulchritudinem deplorare magis, quam ex illorum veſtigijs coniectari licet. Tu interim, dum noſtra tibi deſudat induſtria, hæc qualiacūque æqui, bonique consule, et noſtris laboribus, lætus, fruere.
